PRODUCT FEATURES

How are your gut instincts? You have probably heard the gut is the second brain. Are you protecting, providing for, and sustaining it? What goes into your mouth becomes the building blocks of your body, but what in the gut tunnel is deciding what's staying and what's going. When the gut is healthy, the tunnel is efficient, supportive, and doesn't allow unwanted leaking into the body's central systems. Most diseases, inflammation, and infections start in the gut so we have developed a blend of probiotics, digestive enzymes, nutrients, and other natural ingredients to help keep your gut happy and functioning optimally. Keep your gut brain happy!

SUGGESTED USE

Pour directly into mouth.
